Council PROCEEDINGS .- The City Council met, last evening, and received the report of the City Solicitor on the bill of WILLIAM BAIRD in the case of Simon Fought or. WILLIAM BAIRD. The Solicitor gives it as his opinion that the city is in no way responsible for the bill. The report was ordered to be filed.

By resolutions offered by Mr. Bornes and adopted, the City Civil Engineer was directed to prepare the necessary plats and estimates for constructing a sewer on Fourth street from Rich to State street; for extending Spring street sewer from Front street to the north side of Long street sewer; and for the extension of the Peter's Run sewer.

An ordinance was introduced by Mr. BUTLER and read the first time, for grading and paving the sidewalks, gutters and crossings, and for grading and macadamizing the roadway of High street from the north line of the city to the north side of Mound street.

Mr. Exerty presented the petition of Jones Jacons, stating that the Columbia Hook and Ladder Company were indebted to him in the sum of \$66 27, and that to secure himself he was compelled to seize upon their hooks, ladders, &c., and asking the Council to purchase the same for the use of the city. Referred to the Committee on the Fire Department.

By a resolution offered by Mr RILEY, and adopted, the President of the Council was authorized to issue the note of the city to Messra. SILEDY, MYNDERS & Co., of Seneca Falls, N. Y., for \$4,500, for the Steam Fire Engine recently received, payable in one year with six per cent.

Mr. Burrays offered a resolution that the broken stone now belonging to the city be divid ed by the Police Committee equally among the different wards, and that the same be removed by the Street Commissioner, under the direction of the said Committee, as it may be called for by the Committees of the different wards-Referred to a Committee consisting of Mesers. BUTTTES, DOUTY, COMSTOCK, EDERLY and STAUR-ING. Adjourned.

THE ATLANTIC MONTHLY FOR FEBRUARY .- The first article in this number of the Atlantic is on "German Universities," embracing an account of the study and government in the great and renowned institutions or learning in Germany. The interest in the "Processor's Story," as it draws toward the close, increases. It has al ready been published by Messrs. Ticknon & FIELDS, of Boston, the publishers of the Atlantic, in book form, under the title of "ELSIE VENNER, DO YOU WANT WHISKERS" a Romance of Destiny."

The third article in the March number of the Atlantic is on "Gymnastics," in which|the claims of the art of generating firm muscle and strong nerves are ably vindicated. The old notion that there is a necessary connection between a sound body and a sound mind is not yet quite obsolete.

The poems in this number are "Land Locked" and "Behind the Mask." The latter coned" and "Behind the Mask." The latter contains a beautiful thought beautifully expressed. Stimulating Onguent, "Two or Three Troubles" is a very pleasing, lively story, the first installment given in this number. "The Harbors of the Great Lakes" forms an interesting supplement to the article on "The Great Lakes" in the February number.

"The Man who Never was Young" tells his own story, and cannot fail to find many sympathizers among those who have had a similar sad experience. What a warning to those who undertake to train the young, is contained in the words with which the narrative closes-"We to the Man who has had no Youth."

The remaining articles are-"The Men of Schwyz"; "A Nook of the North," and "Diamonds and Pearls." The last is a historical disquisition, containing lively and interesting

It is a beautiful, economical, soothing, yet stimulating disquisition, containing lively and interesting sketches of the most noted diamonds and pearls in the world, and those most distinguished for wearing such costly ornaments.

"Reviews and Literary Notices" close the Atlantic for March, which, taken altogether, is inferior to none of its predecessors, and this is saying a good deal where so great excellence has been herotofore attained.

D'Mr. R. F. WATERTON, Superintendent of the Cleveland Industrial School, gave an exhibition with twenty of his pupils, at the Hall of the House of Representatives, last evening .-The exhibition was a creditable one. Meesra-J. A. FOOTE and HARVEY RICE, of Cleveland, gave an account of the organization and history of the Industrial School of that city. It takes the children who cannot be got into the common schools, and by providing for them a substantial dinner, holds out an inducement to keep them in school or at work all day. At the close of the meeting, thanks were tendered to Mr. Wa-TERTON and his daughter for the exhibition of the results of their experiment, and to Messrs. FOOTE and RICE for the explanations they had

II It is certainly not very pleasant and in no way very creditable to our city to note the fact that the police were busy on Sunday last in arresting persons for disorderly conduct, and that on Monday morning, the Mayor's office was crowded with these offenders against the law and good morals. Most of them, we learn, paid their fines; but the payment of a fine or service on the chain gang is but a poor compen sation to society for the injury inflicted by an evil and vicious example. Some of our young men, we understand, are occasionally impliested in the proceedings before our Police Court We hode these cases are few and rare, and that we shall hear of them no more.

COURT OF COMMON PLEAS .- In the case of Smoud ve. Gaoss et al., on trial yesterday, a verdict has been rendered for the defendants .-The Grand Jury are still in session, but expec to finish their labors this evening, or to morrow morning.

of the Pennsylvania Democratic Convention. Laid on the table.

The house took up the volunteer bill.

Mr. Howard, of Michigan, resumed his remarks in favor of it, which, he argued, merely gave a construction to the Constitution already in existence. It was the duty of Congress to put into the hands of the President the means of performing his duty, and to point out the mode in which he should do it. They could not be released from this obligation. He repeated that the President should have the power to execute the Constitution in all its points. The highest duty of a government, which dates far anterior to all constitutions, is to preserve its existence.

in all its points. The highest duty of a government which dates far anterior to all constitutions, is to preserve its existence.

Mr. Pryor said it was the purpose of the dominant party, plainly manifested and openly avowed, to drive through the bill by the pressure of an irrepressible rule. As this was a foregone conclusion, he hoped it would pass at once, to the end that the people of Virginia and the South may be aroused to the perils which menace their destruction. He defiantly challenged them to assume the attitude of hostilities, corresponding to their bloody designs. He knew the Republican party are resolved never to recognize the independence of seceled States, nor to surrender the control over the captured forts. In short, they are resolved to permit the South no no other alternative but submission or subjugation.

Mr. Curtis said that Mr. Pryor had indulged in a sham of declamation and denunciation, similar to that of his colleague, Mr. Bocock. The Republicans were accused of meditating coercion, when everything they had done and said had no such bearing. The gentleman expressed the hope that the bill would speedily pass, for the purpose of arousing Virginia and the Bouth.

He did not thus speak to reason, to the bill or to Congress, but to the Convention of Virginia and to the assemblies of the South, who are taking action against his own mother country. The gentleman's own statement, that a Confederacy exists within the United States, should induce us to draw around us all the means of power and protection we can command. If we are a nation, we ought to show it. What are the pillars of government? Goodness, wisdom and power. There can be no government without power, and no power without enaction, the omission of which would be mere advice.

The bill now pending was for means of defence and for the sake of peace. He contended there was nothing unconstitutional in the bill, which only extended the provisions of the existing laws. An attempt was made to burn Mr. Moore in effigy, but was stopped by the Mayer. The whole was a decided secession demonstration, gotten up by parties in the negro business and selling interests. Mr. Moore obsered resolutions demanding security against further wrongs, opposing the African slave trade, opposing direct invation, approving the Orittenden Resolutions, declaring that if such or a similar compromise in not adopted, Virginia will be ready to enter into a compact with such States as will agree to such compromise and form a new Confederacy, excluding all disagreeing States Referred.

Mr. Moore advocated his proposition, and was replied to by Mr. Goods, favoring secusion; causing considerable excitement in the galleries, which were cleared, and the Convention adjourned.

ECRANTON, Pa., Feb. 25.—At about 1 o'clock on Sunday morning, as three men, named Geo. Breman, Andrew Farrell and Boylo, were passing a street in the city of Carbondale, they were attacked by a man named Martin Gisson. The former was instantly killed, Farrell fatally stabbed, and Boylo dangerously injured. The weapon used was a large bowle-knife. No clue can be ascertained for the deed; as all the parties, it is said, were sober.—Gibson expressed regret at being defeated in his purpose of killing all three. The murderer passed through here on his way to Wilkesbarre yesterday. NEWARK, N. J. Feb. 25.—The City Hotel here was the scene of an attempted suicide on Saturday night. A man and woman engaged a room together, and largely partock of laudanum: both, however, survived, though they suffered much. The man's name is said to be Moore, connected with the Zino Works, and is respeciably connected here and in New York. The woman is unknown. The case appears to be shrouded in mystery. Strong efforts have been made to suppress the affair.

The Arkansas Convention Election.

Van Buren, Ark., Feb. 25.—Arkansas is confidently believed to have gone largely against secession. The West and Northwest, as far as heard from, is nearly unan imous. She is force-operation with the Border Slave

States. Feb. 25.—Returns from 10 counties in Southern Arkansas, show them to have gone for a Convention, and secession candidates are elected. It is conceded that the majority for a Convention will be from four to five thousand.

The interruption of the overland mails in Texas was caused by a party of Indians selsing the stock, destroying the property, &c. One driver was killed.

Mamphis, Feb. 25.—The toturns from Arkansas are favorable to holding a Convention. Thus far thirty secessionists, 24 conditional secessionists, and between 15 and 20 submissionists are elected.

Fr. Kearney, Feb. 26.—Mr. Frest's mule train of five wagons, from St. Joseph to Pike's Peak, passed early this morning, being the first of the season. The teams were in good condition. Weather clear and warm.

Information is before proper authorities tending to prove that an organized band of 360 men have sworn that Mr. Lincoln shall never sleep in the White House. A detective, who joined them, says the plan is as follows: The entire band are to occupy a position as near the President on inauguration day as they can obtain; one of their number, standing in the centre of them, is to shoot Mr. Lincoln with an air gun, when the crowd of men around the assessin will so hide him as to render detection impossible. A document was handed to Mr. Lincoln to-day, signed by a majority of the New York State scenate, headed by the Lieutenant Governor, recommending Mr. Colfax for Postmaster General. Mr. Lincoln observed that this was very strong, and that there seemed a very general desire in many parts of the country that Mr. Colfax should have the position indicated. ine to choice extra family.

The Peace Convention has been in session all day The debate was the most spirited which has yet occurred. Mr. Guthrie and some of his friends became so much offended that they left the hall and signified their intention not to go back. The Convention at one time was nearly breaking up, but better counsel prevalled. Mr. Guthrie subsequently returned, and business proceeded. Some members stated that a hi in session was probable. RICHMOND, Feb. 25.—A strong speech was made in the Convention yesterday by Mr. Moore, of Rockbridge, in Gov. Letcher's district, the substance of which was inimical to the rights of Virginia, and the whole South, and the people of Richmond. It was decidedly Union in its tendency, and strongly against the action of South Carolina. The soccasionists posted bills calling every true Southerner to attend an indignation meeting.—Music was engaged, and 1500 persons assembled near the Exchange Hotel, and strong Southern speeches were made by Delegates to the Convention. Kx-Gov. Wise was called for, but was thusell. The meeting adjourned to the Spotswood House, where more speeches were [From the New York Observer.] As all parties manufacturing Sewing Machines are ob-ged to pay Mr. Howe a license on each machine sold. nd are a so compelled to make returns to him, under ath, as to the number sold, his books give a correct stateint. Scrofula, or King's blood, by which this fluid becomes vitiated weak, and poor. Being in the circulation, pervades the whole body, and may burst or in disease on any part of it. No organ is fir from its attacks, nor is there one which it me not destroy. The scrofulous taint is various caused by mercurial disease, low living, disordered or unhealthy food, impure sir, filt and filthy habits, the depressing vices, and above all, by the venereal infection. What ever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed it seems to be the rod of Him who mays, "will visit the iniquities of the fathers upotheir children."

their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is tormed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from productions. tions not only suffer from scrofulous cosplaints, but they have far less power to wit stand the attacks of other diseases; comquently vast numbers perish by disore which, although not scrofulous in their natu are still rendered fatal by this taint in system. Most of the are still rendered faint by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must removate the blood by an alterative medicine, and invigorate it by healthy food and exercise Such a medicine we supply in

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal mainty. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, St. ANTHONY'S FIRE, Rose, or Entsipelas, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUM STISM, SYPHILLTIC and MERCUNIAL DIS-EASES, DROPSY, DYSPERSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING PROM VITTA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Hendsche, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originat-ing in biliary derangement, caused by the Malaria of Miasmatic Countries. We are enabled here to offer the community

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of Freven and Agun from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fryers and Agun prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the specify and certain cure of Intermittents is that it contains no Quining or mineral, consequently it produces no quinism or

or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitu-tion. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Newalgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Paipitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Cohe, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cune" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelline ar temporarily nmigrants and persons travelling or temporarily esiding in the malarious districts. If taken occasionally or daily while exposed to the infection that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protec-tion than cure, and few will ever suffer from Inter-mittents if they avail themselves of the protection
